**2** KROGH IS A top quality design bureau specialised in **book design**. We deliver ready-to-print books to clients all across the world, handling everything from **text conversion** through **design, repro & illustrative work**, to **page making & type-setting**.

¶ 2Krogh is also well known worldwide as **high quality designers** and typesetters of larger book productions, such as **Bibles**. This year we have produced 23 different Bible editions in 8 different languages.

¶ Adobe **InDesign** & the best **OpenType** fonts are our tools and in combination with a bit of **JavaScript, XML, PHP** we always strive to optimise our workflows and automate as much as possible, putting the tools to the test.

¶ 2Krogh is also a very busy company, we love challenges, the more difficult a project sounds, the more fun we find it.

- ♦ Are you like us?
- ♦ Are you willing to relocate to Århus, Denmark?
